

WASHINGTON, D.C.

MARY BONO MACK  
MEMBER OF CONGRESS  
CALIFORNIA

April 27, 2011

It is my great pleasure to welcome you to the Best-Out-Of-School-Time Conference. This is a special event that will allow you to view the latest research and trends in out-of-school-time programming.

The Best-Out-Of-School-Time Conference provides after school professionals with the opportunity to engage with others in their field, and access resources, products, and services that might otherwise be unavailable so they can continue to provide exemplary out-of-school activities. The Conference will benefit all students participating in BOOST programs by providing up-to date information to professionals.

This annual event offers exceptional workshops, professional development opportunities, and a wide variety of exhibitors that promote the quality of out-of-school time activities. The BOOST conference also helps build community partnerships and I extend my sincere appreciation to the Conference for their contributions to the community of Southern California.

Again, welcome to Palm Springs, and thank you for your support for this outstanding association. I extend my best wishes for an enjoyable conference!

Sincerely,

MARY BONO MACK  
Member of Congress
